

CoolTex™ Ag 13" Patella Stabilizer with Cor-Trak Buttress and Hinge

Silver-based antimicrobial lining inhibits microbes that can break down fabrics and cause foul odors

CORFLEX®
Designed for life.

CORFLEXGLOBAL.COM

The CoolTex Ag Patella Stabilizer with Cor-Trak Buttress and Hinge offers comfortable support to the knee with the added convenience of easy application. Brace features bilateral, heavy-duty polycentric hinges to help prevent brace migration and is manufactured from CoolTex Ag fabric to allow for easy flow of air, transfer of moisture and antimicrobial protection.

Lightweight and breathable CoolTex Ag material allows for greater comfort during extended wear, helping wick moisture away from the skin. Material also contains silver yarns that provide antimicrobial protection to the fabric to help reduce odors and protect fibers from premature breakdown. Available in both open and closed popliteal in eight, sizes XS through 4XL.

ADDITIONAL FEATURES:

- Features movable u-shaped Cor-Trak buttress with textured finish for maximum patella stabilization and aluminum hinges for moderate medial/lateral support
- Indicated for patella subluxation, patellofemoral tracking abnormalities, chondromalacia, tendinitis or as part of a post-op rehabilitation program
- Manufactured from lightweight, breathable, antimicrobial CoolTex Ag material; bilateral, aluminum, polycentric hinges with hyperextension stops; removable, EVA foam buttress

CoolTex™ Ag 13" Patella Stabilizer with Cor-Trak Buttress and Hinge

Open popliteal design and elastic thigh strap promote greater comfort, especially during activities that involve frequent knee flexion (also available with closed popliteal).

Brace tabs assist with application and adjustment during wear.

Strap closures feature specially treated ends to allow for easy brace removal.
